Official Pacific Logging Congress
7th in the Woods Show Guide
Fewer and fewer Americans realize where the eggs for their omelets come from. The same is true for the lumber to build the tree house in the backyard. We need to get them involved in order for them to have a better understanding of the forest products industry along with the men and women who work in it.

With today’s social media sites, we can learn many things about the world around us. We can learn how to change the oil in our car or truck. We can research where to spend our next vacation. The problem is we don’t always know how the story may have been embellished to reinforce the author’s political position or personal beliefs.

The “In the Woods Show” gives the forest products industry an opportunity to get individuals involved. Through involvement, we create possibilities for education and understanding. The industry needs a venue like this to tell our story along the guided interpretative trail.

During our three-day event, visitors will have opportunities to gain a better understanding of new technologies and how they are applied throughout the forest products industry. Visitors will also witness these technologies in action, as a variety of forest management activities will be in progress.

Our goal is to provide a safe, fun, and educational experience for the thousands of children, teachers, logging contractors, and land managers in attendance. With the arena style format, visitors will be able to view multiple manufacturers from a single viewpoint.

The Pacific Logging Congress’ mandate of education will be on full display at this event. Our tour guides will cover several aspects of forest management including the protection of water, air, wildlife habitat, and recreation enhancement. Logging contractors will also have an opportunity to earn professional logger credits by attending on-site seminars.

I invite you to get involved by attending the Pacific Logging Congress’ In the Woods Show September 25-27, 2014, and develop a better understanding of how a healthy forest is managed for a variety of products. The show site will be at a new location on Port Blakely Tree Farms’ property near Molalla, Ore. Make plans today to bring a friend and embrace this sustainable, renewable resource that our forests provide.

See you there!

Duane Evans

Circle Reader Service Card 103
In Appreciation

A thank you from PLC Executive Director Rikki Wellman

The list is long when it comes to thanking everyone who participated in making the 7th annual In the Woods Show of the 105th Annual Pacific Logging Congress a resounding success. The teamwork involved in coordinating an event this large is monumental; it takes dedication, a profound interest in the industry, and backbreaking effort to reach fruition.

As planning initiated for this event, we realized adjustments were needed to make this year’s show another success. Therefore, a new layout was formulated and presented to several manufacturers and distributors. They quickly expressed their support and eagerness to get started. We have great appreciation for all exhibitors involved in this process and know it would not be possible without their participation. We thank all our sponsors for your continued support!

Without the woods, there is no In the Woods show. Many thanks to Port Blakely Tree Farms who donated the use of this site located just outside of Molalla, Ore. Their generosity has enabled us to expose thousands of youngsters, logging professionals, forestry managers, equipment providers, and the general public to the latest techniques and machinery the industry has to offer. This is a unique opportunity to experience the logging industry from the inside out.

I extend a genuine “thank you” to Port Blakely Tree Farms, Oregon Forest Resource Institute, the many volunteers, and the PLC Board of Directors, members, and staff. Also, a special “thank you” goes out to the thousands of people who were interested in our profession and took the time to learn more about what we do and why. We are thankful to be part of this great profession!

Thank you on behalf of the PLC officers and Board of Directors.
Highly skilled professionals are the backbone of the timber industry. They not only set the standard for excellence, but are looked to for their knowledge of the most current rules, regulations, and techniques.

The 2014 Pacific Logging Congress will provide attendees the opportunity to earn up to 8 Professional Logger credits. During the live in the woods show there will be several seminars presented by industry professionals.

Two Extra Credits
You can also earn two extra credits just for attending the PLC Live in the Woods show.

Planning Your Classes
For more information on the seminars, please turn to page 16. There you find out topic, instructors and the maximum credits you will be able to earn during the show.

These credits are applicable toward Professional Logger’s Certification and fulfillment requirements as outlined in the Sustainable Forest Initiative.

Individuals attending seminar will sign in at the end of each seminar.

Seminar - Family Succession Planning
Sponsored by Peterson Cat
This session is designed to help family busi-
ess owners understand the connections, and
contrasts, between family and business. Owners
will discover ways to build a strong foundation
for growth and succession. In addition, we will
present strategies to limit liability and tax impact
to ensure a successful transition of ownership to
the next generation.

What’s on the Menu

You won’t go hungry at this year’s PLC show. Three different vendors will be offering food around the clock.

Smokey Bones BBQ
A mobile BBQ and smoker, Smokey Bones serves pulled pork sandwiches, smoked Kielbasa sausage, and beef brisket. The meal is finished off with the company’s homemade sauce as well as their delicious coleslaw and ranch style beans. Lemonade, sodas, and water are available.

Thelma’s Grub Tub
Thelma’s offers a breakfast selection and a variety of sandwiches made on a great pub bun for lunch. You get to pick the garnish and type of cheese that goes on your sandwich. Ice cold drinks are also available. If you have a sweet tooth, they offer a small selection of “from-scratch” baked goods.

Coffee in Motion (Onsite Coffee Vendor)
Coffee in Motion is a full espresso and smoothie bar serving up hot, iced, and blended espresso drinks, coffee, Chai, Italian cream sodas, and Red Bull fruit smoothies. They use quality local products and organic wood-roasted coffee beans.

Lupita’s Restaurant
We are a full service restaurant with a tacos stand right outside as you would see in Mexico. We been in business for 14 years and still going strong. We also offer a mobile service for any type of event from birthday parties to weddings.
The 2014 Pacific Logging Congress’ live In the Woods Show is just around the corner. While the demos are always captivating and entertaining, they are only one facet of the organization’s repertoire.

History
PLC was established in 1909 with a membership drawn from loggers, mill owners, manufacturers, and equipment dealers representing 250 companies throughout the western United States and British Columbia.

Many non-members also participate in its programs showcasing both equipment displays and conventions where the newest machinery and supplies have been exhibited and demonstrated.

Conference topics have historically covered subjects ranging from safety and political issues impacting today’s harvest, to the utilization of new methods, sound forest management, and the latest techniques for increased productivity.

Focus on Education
A major focus of today’s PLC is education, not only of our logging community but school children and instructors as well.

It Takes a Tree. There has been resounding success with the introduction of the It Takes a Tree curriculum that includes a full-color, 32-page brochure about forestry and logging. Accompanied by a 17-minute video, this well-rounded production is now in the hands of more than 15,000 science educators in the Northwest, with separate versions distributed in British Columbia and the U.S. Following close on the heels of the video, a DVD series was co-produced by PLC, Washington Contract Loggers, and Interactive Training Media, Inc. The DVD is customized for each venue of distribution.

Logger Credits
This year, loggers will have the opportunity to earn up to eight professional logging credits. Topics cover family succession planning, safety, sedimentation control, and more.

Educational Tours
PLC will host 2,500 Portland and Southwest Washington teachers, students, and parents on September 25 and 26. Since its first show in 1989, PLC has hosted 14,000 students. Teachers, students, and parents will once again have a first-hand opportunity to see the value of our industry.

Career DVD
The Pacific Forest Foundation (PLC’s education wing) produced a much needed “careers” DVD titled “This Is My Office.” The DVD was unveiled at the 100th Celebration of the PLC in November 2009. Not only has it been well received by colleges and high school career counselors, it recently received the Silver Telly, which is the highest level you can receive — an international competition that recognizes the work of media professionals in the Advertising, Broadcast, Online, and Multimedia fields.

PFF Scholarship Program
In 2012, PFF established a scholarship program. Scholarships are awarded to students who are studying in the forest products industry or related areas of study. To date, PFF has awarded $25,000 in scholarships.

The Ultimate Reality Show — Live Demo
In addition to regular conventions or congresses, the Pacific Logging Congress holds an In the Woods Show every four to five years. This provides an opportunity for equipment manufacturers and dealers to not only exhibit their machinery, but also present an on-the-ground, working retrospective on hand-selected sites (five to seven acres), allowing attendees to witness actual operations under real working conditions.

In addition to the logging operations, there are also static displays and booths to view state-of-the-art technology throughout the industry.

During this three-and-a-half-day event, Congress attendees will be transported by bus to the logging sites to view the safest, most effective, and environmentally advanced techniques available.

Food and refreshments will be available, as will literature covering every aspect of this grand display. With over 100 years under our belts, PLC is confident that the In the Woods Show will be an unforgettable experience for everyone.

This steam donkey was on display at the 2001 PLC. It was manufactured by Willamette Iron & Steel Works of Portland, Ore, serial number 1463, was sold to Dover Lumber Co. in 1917 and was designed for road building.
Four Unique Seminars Thursday & Friday

Attendees who want to take advantage of the other educational credits offered can attend the seminars listed below (one on Thursday evening, Sept. 25, at the Oregon Garden Resort and three on Friday, Sept. 26, at the PLC show site). If you attend all the seminars, you can earn a total of eight credits.

**Family Succession Planning**
Where: Held at Oregon Garden Resort  
Orchid Room  
When: Thursday, Sept. 25  
5:00 p.m.-7:00 p.m.  
Hosted by: Peterson Cat and Caterpillar  
This seminar will be presented by Sherri Noxel, PhD, Director of the Auction Family Business Program at Oregon State University, and John Nygaard Jr., Estate Planning Lawyer in Portland, Ore.  
Attendees of this seminar will receive two Professional Logger Credits.  
Please sign the attendance sheet at the end of the seminar.

**Operator Walk-around Demonstration**
Where: John Deere/Papé  
Exhibitor Tent  
Full Tree Active Site Area  
When: Friday, Sept. 26  
9:30 a.m. to 10:30 a.m.  
Hosted by: Papé Technical Center  
This seminar will be presented by Jim Carter, New Products Engineer and Manager of Papé’s Technical Center, and Lane Kling, Senior Technical Instructor, Papé Machinery.  
Attendees will receive one Professional Logger Credit.  
Please sign the attendance sheet at the end of the seminar.

**Sedimentation Control**
Where: Static Site (See map)  
When: Friday, Sept. 26  
11:00 a.m. to 1:00 p.m.  
Hosted by: Advance Drainage Systems, PLC, Port Blakely, and ODF  
This seminar will be presented by Jeff Hepler, Stewardship Forester, Oregon Dept. of Forestry; Dave Robert, Forest Engineer, Port Blakely Tree Farms; and Mike Reardon, Geo Synthetic Expert, Advance Drainage Systems.  
Attendees will receive two Forest Practices Seminars or two Professional Logger Credits. Please sign the attendance sheet at the end of the seminar.

**Level 2 Walk-around Loaded Log Truck Inspection**
Where: Static Site (See map)  
When: Friday, Sept. 26  
1:30 p.m. to 2:30 p.m.  
Hosted by: Oregon Dept. of Transportation (ODOT) and Weyerhaeuser Co.  
This seminar will be presented by Brian Queen, MCTD Compliance Specialist, ODOT; Todd Raska, MCTD Compliance Training Div., ODOT; and a representative from the Weyerhaeuser Company.  
Attendees will receive one Professional Logger Credit.  
Please sign the attendance sheet at the end of the seminar.
After a long day in the woods, the PLC will hold its Auction and Loggers’ Barbeque at the Oregon Garden Resort on Friday, September 26. Enjoy hosted beer and wine while visiting with friends.

It’s just $50.00 a head for this “come as you are” shindig. PLC President Duane Evans says the PLC’s goal is for everyone to feel comfortable, at home, and be able to relax after a hard day’s work.

**Auction Items**

After you’ve had your fill of BBQ, browse the display of auction items available for the silent and live auctions managed by Ritchie Brothers Auctioneers, in support of the Pacific Forest Foundation education programs. Auction proceeds will help fund In the Woods Show Tours’ It Takes a Tree curriculum, “This Is My Office” DVD, the PFF Scholarship program, and other nonprofit programs.

Items donated for the auction this year include 2015 NASCAR racing tickets, seven nights on Maui (up to $1,000 for airfare), 2015 Seahawk tickets, Le Vieux Pin Equinoxe Merlot 2008 Magnum (1.5 liter) Plus a private guided tour and tasting of the Vieux Pin Winery in Oliver, British Columbia, an overnight stay at the Oregon Garden Resort, a hand-crafted wooden rocking cradle, a carved toothpick holder, an authentic Coach handbag, a beautiful Fire & Light glass bowl, autographed chrome blade axe signed by Mike Pihl . . . and that’s just a taste. There’s much, much more!

Come on over to the Oregon Garden Resort, relax, and pull up a stump. For only $50 per person, you can’t beat an evening of entertainment like this. We look forward to seeing you!

To order your tickets for this fun and laid back evening, visit [www.pacificloggingcongress.com](http://www.pacificloggingcongress.com) or call the PLC for more details at (425) 413-2808.

Here’s just a few of the items that will be at the 2014 Auction:

- Caterpillar - 2015 NASCAR Season; two tickets and other special amenities (Race to be determined by Caterpillar and lucky bidder.)
- Todd Gordon - Hand-crafted rocker cradle
- WD Moore Logging - Le Vieux Pin Equinoxe Merlot 2008 Magnum (1.5 liter) Plus a private guided tour and tasting of the Vieux Pin Winery in Oliver, British Columbia
- Murray Pacific Corp - Seven nights at the Wailea Resort on Maui, Hawaii (includes up to $1,000 in airfare)
- Murray Pacific Corp - Four Seattle Seahawks football tickets for the 2015 Season
- Mary Gordon - Tea basket
- Todd Gordon - One-of-a-kind toothpick holder
- Oregon Garden Resort - One room for one night
- Mike Pihl Logging - Autographed ax signed by the Ax Men
- Doris and Jim Wark - Authentic Coach Handbag
- Joel Olson Trucking and DSU Peterbilt - Hostess Gift Basket
- “Fire & Light” Glass Bowl
Students in grades four through 12 will have the experience of a lifetime when they attend the educational In the Woods field trip, September 25 and 26, at the Port Blakely Tree Farms’ site in Molalla, Ore.

A volunteer tour guide will lead classes of students along the trail through the education stations. These stations include:

• **The Wildlife Station.** Will allow students to see how managed forests benefit wildlife and protect habitat.

• **The STEM (Science, Technology, Engineering, and Math) Station.** Focuses on the skills used to actively manage a forest before harvesting occurs. Class groups will be seeing an active harvest operation. This station will give students insight into the choices and careers that are part of the growing and planning that takes place before a harvest.

• **The Trees 101 & Oregon Wood Products Station.** Will help connect students with Oregon tree species and products. Hands-on manipulation activities featuring forest products and wood species/tree identification will help students establish a relationship between the trees in the forest and the products they use in their daily lives.

• **The Logging Sports Station.** Will provide an opportunity for high school forestry programs and College of Forestry students to be an active part of PLC and showcase these sports to a wide variety of audiences.

• **The Forest Recreation & Fire Safety station.** Will promote stewardship and fire safety when students are in Oregon’s forests. A mock campsite will be set up featuring a variety of recreational activities that take place in the woods.

• **The Tree Planting & Protecting Oregon Forests Station.** Provides exposure to Oregon Forest Protection Laws and the people who enforce them. Reforestation is a key message, and the primary activity will be for each class to plant one tree.

• **The Bus Loading Area.** Will be staged with equipment to give the students an up close look and a final hands-on experience.

Please plan to join the tour and experience an education in the woods! Call Julie Woodward at OFRI, (503) 807-1614.
It’s time to start thinking about PLC 2015. The convention will be held on the Big Island of Hawaii at the Hilton Waikoloa Village Resort. Save the dates November 8–11, 2015, and mark your calendar.

The theme of the 2015 event will be “The Future Is Here - Catch the Wave” and it will be led by 2015 president Todd Gordon, Caterpillar Forest Products.

For more information on the upcoming event, you can log on to www.pacificloggingcongress.org, call (425) 413-2808, or visit PLC’s booth in the Main Tent display area at the In the Woods Show.

Port Blakely Celebrates 150th Anniversary

This is a big year for Port Blakely. It’s the company’s 150th anniversary.

The company got its start in 1864, the same year Abraham Lincoln was re-elected President. That year Captain William Renton purchased land on Bainbridge Island, Wash., and founded the Port Blakely Mill Company.

Over the next several decades the company experienced both booms and busts. Captain Renton took on new partners, upgraded the mill and added a railroad to haul the huge logs from Mason County. The early years were not without a fair number of setbacks, too. The mill was burned and rebuilt several times and the company weathered sharp downturns in the economy. However, with perseverance, an entrepreneurial spirit, and a bit of luck, the company adapted and survived.

In 1903, Port Blakely was purchased by two partners, Ned Skinner and John W. Eddy. Skinner and Eddy saw the need for ships during WWI and expanded the company into manufacturing steel-hulled ships. Eventually, the partnership dissolved with Skinner taking over the ship building business and Eddy, along with his brothers, James G. and Robert B. Eddy taking over the timber business.

Today Port Blakely Companies is a family-owned, diversified forest products company. While the company is no longer in the mill business, the fourth-generation of Eddys are committed to exceptional stewardship of their forestlands and businesses: Port Blakely Tree Farms, Pacific Lumber & Shipping and Blakely Pacific Limited.

Congratulations, Port Blakely Companies, on achieving this milestone!

An Authorized Doosan Dealer
Register, Park, and Take the Shuttle

DIRECTIONS
From Portland I-205
Take exit 10 (Hwy 213/Cascade Hwy) South to Molalla.
At the Safeway Plaza there is a 4-way stop - turn left/East on Main St./Hwy 211 (Hwy 211 is shown as Woodburn Estacada Hwy. on map). The road forks - follow to the right (NOT to Estacada) to Feyer Park. Follow main road until it forks again on a bridge. Turn right/South. About a mile and a half and on the right is the office.

From I-5
Take exit 271 at Woodburn. Head East on Hwy 214. After light at Woodburn Safeway, it becomes Hwy 211. Continue East all the way to Molalla. Hwy 211 turns into Main St. - Continue through town until the road forks and follow to the right (NOT to Estacada) to Feyer Park. Follow main road until it forks again on a bridge. Turn right/South. About a mile and a half and on the right is the office.

PLC in the Woods Show parking lot is on the west side of 33671 Dickey Rd. Look for the PLC "Welcome Center" sign.

PLEASE NOTE: THERE ARE NO Pasie, Trails, and Concessions
You will need to purchase a full day shuttle for the ride to the woods at the PLC on-site registration rest stops.

Concessions, rest areas, and restrooms
Wear comfortable walking shoes. For your safety, no open-toe shoes.
